The tallest snowperson on record stood over 122 feet

Building a snowman is a classic winter activity. In Bethel, Maine, in Feb. 2008 residents spent a month building a Guinness World Record-setting snowperson, named Olympia. Olympia was made up of 13 million pounds of snow & measured just over 122 feet.

There's an annual International Hair Freezing Contest in Canada every February

International Hair Freezing Contest, which takes place every February. "The purpose of the contest is to create the most creative frozen hairdos possible; you soak in the hot springs and allow the steam to accumulate on your head while the cold air freezes your hair," according to the event's website. The intricate icy hairstyles that competitors have donned over the years since the contest began in Canada's Yukon territory in 2011 are really something to see.

Mary Shelley's Frankenstein, 2-4 p.m. – The Machickanee Players present an original and novel-faithful adaptation of Mary Shelley's 19th century horror classic. Frankenstein is a tragedy and cautionary tale about considering consequences, taking responsibility, and of mankind's penchant for superficial judgements and condemnations – ironically creating our very own monster. Pie from OJ's Midtown Café is an optional add-on for this matinee. Pie orders due Feb. 13. Park Avenue Theatre, 408 Park Ave., Oconto. For more info call 920-815-1194

Just For Some Giggles...

You know you're getting old when you stoop to tie your shoelaces and wonder what else you could do while you're down there.

I prefer not to think before speaking. I like being as surprised as everyone else by what comes out of my mouth.

Eggs are fantastic for a fitness diet. If you don't like the taste, just add cocoa, flour, sugar, butter, baking powder and cook at 350 degrees for 30 minutes!

I love airports because the rules of society don't apply. Eat a pizza and have a glass of wine at 7 am while in track pants. Nobody cares.

Some cities use beet juice, beer waste, and pickle brine on icy winter roads instead of salt
Salt can actually be harmful to the environment and in an effort to be more eco-friendly, some cities are using alternative methods to melt ice, such as beet juice, beer waste, and pickle brine, according to National Geographic. A county in Wisconsin, a state famous for its dairy, is even using cheese brine to prep roads before snowstorms!

A Few Funnies...

Before you criticize someone, you should walk a mile in their shoes. That way when you criticize them, you are a mile away from them and you have their shoes.

Never follow anyone else's path. Unless you're in the woods and you're lost and you see a path. Then by all means follow that path.

Insomnia sharpens your math skills because you spend all night calculating how much sleep you'll get if you're able to fall asleep right now

As you get older, three things happen. The first is your memory goes, and I can't remember the other two.

My therapist told me the way to achieve true inner peace is to finish what I start. So far I've finished two bags of M&Ms and a chocolate cake. I feel better already.

Shovel racing started in New Mexico in the 1970s

Lift operators in the ski resort town of Angel Fire, New Mexico, used to slide down the slopes on their shovels instead of walking all the way to the bottom of the snowy hills. This sparked competitions that were the beginning of shovel racing. Chad Denney set a new record in the men's division making it down the 1,000-foot course in 13.5 seconds at 73.64 mph
